GLOUCESTER

STREET DIRECTORY

GIVING the location of Streets, Places, Parks, Squares, etc., and showing what other streets and places run from them, or across them, with the number at which they intersect

From this list, the location of any number on a street, or the location of any public building, can be easily ascertained; as, for instance, wishing to know at what part of Prospect Street No. 87 is located, you look at Prospect Street, and find that Elm Street runs from 81, and Chestnut Street from 93, showing that 87 would come on the right, between Elm and Chestnut Streets

When a street crosses another, numbers (or ciphers) are given on both sides; but when it begins or ends at that street, the number is given only on the side at which it intersects. Ciphers are used where no numbers exist

*Indicates accepted street. **Streets accepted in part

Where are you putting your Money?

Waste Baskets

MORE than one half of the money spent for advertising yearly is thrown into the waste basket, or used for kindling purposes within 48 hours after publication, and in thousands of cases without first having been read. You are doing this very thing with circulars and other literature business seekers are sending you.

Ledgers

THE DIRECTORY contains a ledger of advertisements, doubly indexed.

Your card is there when your goods are needed, indexed both alphabetically and by your business classfications.

The book is bought to be used for reference throughout the entire year by the general public and business man alike.

OUR solicitors find their work made pleasant by calling upon our patrons who appreciate their Directory Ads and unhesitatingly give their renewals each year.

Glance over the Index to Advertisers, in the front of this book and if your name is not there, see that it is in the next issue.
